# V-ROD®

Few motorcycles have broken deeper ground than the Harley-Davidson® V-Rod® motorcycles, unleashed to the riding public in 2002. With drag-bike styling and street-smart, liquid-cooled performance, they blazed a trail for a whole new breed of rider.

## V-ROD MUSCLE®

VRSCF | PRODUCTION COLOR: MYSTERIOUS RED SUNGLO WITH FLAMES

This sleek and sexy V-Rod Muscle® motorcycle combines drag strip styling with a hot-rod mentality. Flamed Mysterious Red Sunglo paint, Black Ice wheels and rich red brake calipers add a noticeable high-performance touch, while the passenger backrest and luggage rack keep things practical.

## NIGHT ROD® SPECIAL

VRSCDX | PRODUCTION COLOR: DEEP JADE PEARL

Liquid-cooled Revolution® engine performance and attitude are within easy reach on this Night Rod® Special motorcycle with 5-Spoke Black Ice wheels and factory Deep Jade Pearl paint. The Reduced Reach seat brings the rider closer to the blacked-out handlebar and controls, freeing up extra room for your favorite passenger – or someone you just met.

## V-ROD MUSCLE® TRANSFORMATION

With loads of horsepower, 86 foot pounds of torque, and a blend of drag strip and boulevard style, this race-bred powerhouse is revved-up and ready to jump off the starting line.

## POWER PLAYER

See those bright red dual front brake calipers? That tells you this baby is born to run. Other clues? The monstrous 240mm rear tire wrapped around liquid-smooth Black Ice 5-spoke wheels, mirror polished brake rotors, and the black hot-rod flames covering the Mysterious Red Sunglo paint set.

Chrome engine covers, hand grips, hand controls, and foot controls catch just the right amount of light, and we've added a backrest pad and matching luggage rack—just to make sure you and your passenger enjoy all that style, power, and performance.

FIT

Parts list available at [h-d.com/gallery](http://h-d.com/gallery)

Dressed in tactified rubber, Get-A-Grip™ hand grips provide a positive connection to the bike in wet or dry weather. If the stretch to those grips is a little too far, the V-Rod Muscle® motorcycle can be outfitted with a Reduced Reach handlebar to keep you firmly in control.

FUNCTION

Comfort and convenience are the basics of everyday riding. Add a passenger backrest, luggage rack and set of soft luggage for your run to the office, or add an H-D® Detachables™ windshield, switch off your cell phone, and you are ready to leave the city streets behind.

STYLE

Brawn is back. Five knife-edge spokes on the wheels define the distinctive hot-rod style, and their Black Ice finish is the perfect yin and yang to the satin aluminum finish on the engine cases, exhaust, and swingarm. Finish with a few touches of red for a little added heat.

PERFORMANCE

Out of the box, the Revolution® engine packs a punch and delivers a distinctive Harley-Davidson® sound at the twist the throttle. To let it breathe a little deeper, add a Screamin' Eagle® High-Flo air cleaner under the flamed airbox.

CARE AND MAINTENANCE

While it's tempting to use standard "auto parts store" cleaning and service supplies, hold out for the real thing. Genuine Harley-Davidson® coolant, oils, filters, batteries and service parts are engineered for the unique surfaces and operating conditions your Harley® motorcycle will encounter.

CRAFTSMANSHIP

We design and build the bikes, so we don't need to "reverse-engineer" parts to try and make them fit. Everything we make is rigorously tested to ensure it meets our high standards, and the finishes of our accessories match the bike's surfaces for a consistent appearance.

### Wheels & Brake Rotors

#### A. V-ROD® 5-SPOKE WHEEL – BLACK ICE

Bravin is back. Five big and beefy spokes define the distinctive hot rod styling and the knife-edge shape provides an angular spin on the traditional custom wheel look. Treated to the exclusive Black Ice finish, these mirror-smooth wheels add an incredible depth and shimmer that is impossible to reach with an ordinary "black chrome" finish. Pick your styling direction; the rich black finish blends easily into a blacked-out bike, but the wet-look shimmer holds its own in the company of chrome as well. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for fit, quality and durability. Wheels require separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and Brake Rotor-specific hardware. See I-sheet for details.

Fits '09-later VRSCF models and '12-later VRSCDX models.

Ideal for riders with a short inseam length or for riders who prefer an aggressive riding posture, this complete kit moves the foot brake and shift lever from the standard forward control position to a mid-control location. The installation changes the riding stance from a laid-back, foot-forward, straight leg cruising profile to an upright, foot-down, bent knee sport profile. The kit includes left and right footpeg supports, brake and shift lever assemblies, brake and shift linkages, rear master cylinder and all required hardware.
