

## WHEELS, SPROCKETS & ROTORS

---

Make a definitive style statement with a set of custom wheels. Whether you're going for an old-school or new-school look, this is where you set the tone. You'll ride comfortably knowing that Harley-Davidson® wheels meet the highest standards of performance and durability.

## STRENGTH AND STYLE

From a visual perspective, the wheels, sprocket and brake rotors make up almost half of the motorcycle's profile, and set the styling direction for the whole bike. Choose wisely. Harley-Davidson® forged, cast and laced wheels undergo thousands of hours of real-world testing to meet the highest standards of performance and durability.

### SEEING THE DIFFERENCE

#### MIRROR CHROME

Looking for the ultimate flash? Choose Mirror Chrome wheels. To achieve this rich look, our dedicated team of polishers spends hours preparing the wheel for its finish. All visible wheel surfaces are micro-polished to a glass smooth finish, and special masking is applied to prevent contamination to threads and bearing bores.

#### CONTRAST CHROME

Can't make up your mind? Choose Contrast Chrome wheels. We start with a hand polished wheel, and add a proprietary finish that features both gloss black paint and chrome highlights. The combination produces a stunning contrast that lightens the wheel's profile by visually thinning the spokes, rim and hub.

#### BLACK ICE

Want the blacked-out look but unwilling to give up the shine? Choose Black Ice wheels. First, we polish all the surfaces. Then we apply the exclusive Black Ice coating for a finish with incredible depth and shimmer—impossible to achieve with ordinary "black chrome." These wheels look perfect on a blacked-out bike, but the wet-look holds its own in the company of chrome.

#### CUT BACK

Looking for a cool, hard-edged style? Choose Cut Back wheels. We start with a raw wheel, polish all the exposed surfaces, and coat the wheel in a durable easy-to-clean gloss black finish. But we don't stop there. We machine an intricate pattern into the wheel to the raw aluminum surface below. The resulting mix of machined edges and add a tough look to your ride's profile.

### ORDERING PROCESS

#### CUSTOM WHEEL ORDERING PROCESS

**Step 1:** Select a wheel part number for your specific fitment.

**Step 2:** Select the wheel installation kit for your specific application (model, year, and front or rear). Note: If your model is not specified in the wheel fitment, a wheel installation kit will not make the wheel fit your model.

**Step 3:** Refer to the instruction sheet included in your wheel kit to determine the necessary parts required from the installation kit.

**Step 4:** Use only Harley-Davidson approved tires. Using non-approved tires, tires from different manufacturers, or tires with non-matching tread patterns on the same motorcycle can adversely affect handling and stability.

#### WHEEL INSTALLATION KITS

Once you select your wheel style, select the Wheel Installation Kit designed specifically for your motorcycle. Kit includes the bearings and spacers required for installation.

# 672 WHEELS

Agitator

## A. AGITATOR CUSTOM WHEEL

Get ready to stir things up. The 7 forward-facing spokes of these Agitator Wheels dig deep into the soul for maximum custom impact. Spiraling from the custom hub, the flat profile spokes blend to the edge of the rim, minimizing the profile of the wheel and adding an open look that's easy to see around the matching Floating Brake Rotors. Available in your choice of mirror chrome, contrast chrome or black ice finish, these wheels will set the stage for your custom direction. These cast aluminum wheels have undergone hundreds of hours of real-world testing to meet the highest standards of performance and durability. Requires separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and Brake Rotor-specific hardware. See I-sheet for details. Installation may require separate purchase of wheel size and model-specific tire.

## B. CHROME 9-SPOKE CAST WHEEL

Add a splash of chrome. These fully polished wheels are styled to match the popular 9-spoke design featured on traditional Touring models. More than just a chrome-plated Original Equipment Touring wheel, these wheels utilize tooling developed specifically for chrome-plating to give a near perfect finish without the "waves" created when polishing the Original Equipment cast wheel. The rib on the Original Equipment wheel spoke has been removed to provide a smooth uninterrupted look, and countless hours of polishing result in a superior finish. Special masking was developed to prevent plating contamination inside bolt holes and bearing bores. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for quality and durability. Wheel kits require separate purchase of model-specific Wheel Installation Kit, Sprocket hardware and Brake Rotor-specific hardware. See I-sheet for details. Installation may require separate purchase of wheel size and model-specific tire.

Roulette

## A. ROULETTE CUSTOM WHEEL

When you take this wheel for a spin, you're always a winner. Stunning cast aluminum wheel features 11 slim spokes that blend with the rim for eye-catching style. The unique spoke shape stands proud on the rim's edge, mimicking the pockets on a roulette wheel. The surface catches and reflects light, just as the raised ridges deflect the spinning roulette ball. Available in your choice of mirror chrome, contrast chrome or black ice finish, these wheels will add a sinister look to your custom ride. These wheels have undergone hundreds of hours of real-world testing to meet the highest standards of performance and durability. Requires separate purchase of model-specific Wheel Installation Kit, sprocket hardware and brake rotor-specific hardware. See I-sheet for details. ## B. AIRSTRIKE CUSTOM WHEEL – MIRROR CHROME

Hit your custom target. The wide-open slots and the reflections of the mirror-chromed finish almost make this wheel disappear. Teamed with a low-profile front tire and polished brake rotors, this custom wheel adds visual lightness to the front end of your Touring bike. Extensive polishing, copper buffing and nickel plating prepare the wheel for a layer of brilliant chrome for a beautiful bright finish. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for quality and durability. Chisel

## A. CHISEL CUSTOM WHEEL

Honed to a fine edge. These wide-open cast aluminum wheels feature 7 narrow-profile split spokes that radiate from a minimalistic hub. The pedestal-mounted matching floating brake rotors let you see more of the front wheel, and the resulting see-through effect visually lightens the bike's profile to add visual interest. Available in your choice of mirror chrome or contrast chrome finish, these wheels will complement any customizing style. The black and chrome contrast chrome finish was developed by Harley-Davidson to add a sinister look to your custom ride, while the fully-polished mirror chrome option throws flashes of light with every movement. These wheels have undergone hundreds of hours of real-world testing to meet the highest standards of performance and durability. ## B. ANARCHY 5-SPOKE WHEEL

The 5 beefy spokes of this custom wheel dramatically change the look of your Touring model or Trike. The "ball-milled" spokes radiate from the unique center hub to blend with the machined rim, opening the bike for a light, sporting profile. The smooth curving rim adds to the true custom look. The raised bosses on the chrome hub carry the Floating Brake Rotors, and add to the clean appearance of the installed wheel. Available in your choice of mirror chrome or contrast chrome finish, these wheels add a true hot-rod direction to your ride. The black and chrome contrast chrome finish was developed by Harley-Davidson to add a sinister look to your custom ride, while the fully-polished mirror chrome option throws flashes of light with every movement. These cast aluminum wheels have undergone hundreds of hours of real-world testing to meet the highest standards of performance and durability. Magnum 5

## A. MAGNUM 5 CUSTOM WHEEL

Click off the safety and pull the trigger for a true custom ride. The bold, brawny design is inspired by the steel of a large-frame revolver. This one-piece cast aluminum wheel features high-impact styling, with 15 individual spokes that converge to form five distinct columns. The cast-in "rivets" visually tie the oval cross-section spokes to the rim and the hub. Finished in your choice of brilliant mirror chrome or gloss black and machined-aluminum Cut Back finish, these wheels hit the styling target like a high-velocity bullet. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for quality and durability. Slotted 6-Spoke

## A. SLOTTED 6-SPOKE WHEEL

A dramatic look that breaks the mold in motorcycle wheel styling. Available in black or chrome, this stylish custom wheel incorporates the strength of twelve spokes into the illusion of a lightweight six spoke design. Textured fingerlike slots radiate from the center to the uniquely rounded smooth finishes on the inner and outer rim. The combination of polished and textured finishes on the spokes, rim and hub fool the eye and add to the sleek appearance, while the premium quality cast aluminum construction reduces weight without compromising strength. Matching brake rotors and sprockets are available for a complete custom look. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for quality and durability. Requires separate purchase of model-specific Wheel Installation Kit, sprocket hardware and brake rotor-specific hardware. See I-sheet for details. Installation may require separate purchase of wheel size and model-specific tire.

### C. FAT-X 5-SPOKE WHEEL – MIRROR CHROME

Add a splash of chrome without changing the distinctive custom style of your Sportster®. More than just a chrome-plated Original Equipment wheel, these 5-spoke wheels utilize tooling developed specifically for chrome-plating to give a near perfect finish without the “waves” created when polishing the Original Equipment cast wheel. Countless hours of polishing result in a superior finish. Special masking was developed to prevent plating corrosion inside bolt holes and bearing sleeve areas. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for quality and durability. Requires separate purchase of model-specific Wheel Installation Kit.

### C. FANG CUSTOM WHEEL

Something to sink your teeth into. This custom disc wheel features a unique contrast chrome and black finish. First, the cast wheel is painted to a deep luster, then it is machined to expose the bare metal, and finally chrome-plated for a brilliant shine. This reverse process leaves crisp contrast lines without the rough masking lines of some other painted chrome wheels. Chrome-plated bolt-in "saber fang" inserts add a finishing touch. Requires separate purchase of model-specific Wheel Installation Kit, sprocket hardware and brake rotor-specific hardware. See I-sheet for details.

**F. V-ROD 5-SPOKE WHEEL – 19" BLACK ICE**

**F. V-ROD® 5-SPOKE WHEEL – BLACK ICE**

Brawn is back. Five big and beefy spokes define the distinctive hot rod styling, and the knife-edge shape provides an angular spin on the traditional custom wheel look. Treated to the exclusive black ice finish, these mirror-smooth wheels add an incredible depth and shimmer that is impossible to reach with an ordinary "black chrome" finish. Pick your styling direction – the rich black finish blends easily into a blacked-out bike, but the wet-look shimmer holds its own in the company of chrome as well. All Genuine Motor Accessory wheels have been certified by Harley-Davidson to perform to our tough vehicle standards for fit, quality and durability. Wheel kits require separate purchase of model-specific Wheel Installation Kit, sprocket hardware and brake rotor-specific hardware. See I-sheet for details.

Fits '09-later VRSCF models and '12 VRSCDX models.

<b>55083-11</b>	19" Front.	<b>\$549.95</b>
<b>55082-11</b>	18" Rear.	<b>\$649.95</b>

**G. REACTOR CUSTOM WHEEL**

The 5 slim spokes of this custom wheel dramatically change the look of the VRSC™ motorcycle. Available in mirror-chrome or gloss black, the "ball-milled" spokes radiate from the unique center hub to blend with the machined rim, opening the bike for a light, sporting profile. The smooth curving rim, highlighted with machined grooves, adds to the true custom look without compromising strength or performance. The raised bosses on the hub carry the Original Equipment floating brake rotors, and add to the clean appearance of the installed wheel.

**19" Front**

Fits '02-'11 VRSCA, VRSCB, VRSCD, VRSCDX, VRSCX and VRSCSE/2. Requires separate purchase of model-specific Wheel Installation Kit. '07 VRSCX, '08 VRSCAW Anniversary models, and other models equipped with laced front wheels also require additional purchase of (2) Front Brake Rotors.

-----------------	---------	-----------------

**I. REACTOR SPROCKET COMPENSATOR BOWL**

Show off the back of your Reactor Wheel and Sprocket combination. This chrome-plated Sprocket Compensator Bowl replaces the Original Equipment painted part, and dresses up the view when you look through the open design of the Reactor Custom Wheel. Kit reuses Original Equipment compensator cushion.

Fits '07-later VRSC models (except VRSCR) equipped with Reactor Custom Rear Wheel.

<b>40169-09</b>	Gloss Black.	<b>\$49.95</b>
<b>40168-09</b>	Chrome.	<b>\$49.95</b>

## Sprocket Covers

### A. MAGNUM 5 SPROCKET COVER

Styled to match the distinctive Magnum 5 Custom Wheel. Available in mirror-chrome or gloss black, this Sprocket Cover gives the appearance of having a custom sprocket at a fraction of the cost. Cover is easy to install with Original Equipment hardware, or add the Chrome Hardware Kit P/N 94773-07 to your Dyna® or Softail® model for a finished look (*sold separately*).

Fits '07-later Dyna models.

<b>40120-09</b>	Chrome.	<b>\$54.95</b>
<b>42200010</b>	Gloss Black.	<b>\$54.95</b>

Fits '07-later Softail (except FXCW/C) and '07 Touring models.

<b>40121-09</b>	Chrome.	<b>\$54.95</b>
<b>42200011</b>	Gloss Black.	<b>\$54.95</b>

### B. TYPHOON SPROCKET COVER

Styled to match the distinctive Typhoon Custom Wheel. Available in mirror-chrome or gloss black, this Sprocket Cover gives the appearance of having a custom sprocket at a fraction of the cost. Cover easily bolts on using the stock hardware or for a finished look, add the Chrome Hardware Kit P/N 94773-07 (*sold separately*).

Fits '07-later Softail models (except FXCW/C).

### C. CHROME SPROCKET COVER

This Sprocket Cover gives the appearance of having a chrome sprocket at a fraction of the cost. It matches the styling of the Original Equipment sprocket and bolts on using the stock hardware.

**37757-07** **\$49.95**

Fits '07-later Softail (except FXCW/C) and '07 Touring models.

**91347-00** **\$49.95**

Fits '00-'06 Softail models.

### D. CHROME "BIG SPOKE" SPROCKET COVER

Muscle rules. Big, beefy spokes define the distinctive hot rod styling, and the small trapezoidal openings are reminiscent of the Detroit's street performance wheels of the late '60s. The chrome-plated steel cover disguises the Original Equipment sprocket and complements both stock and custom wheels. Easy to install, this cover provides the look of a billet sprocket at a fraction of the cost.

**40124-10** **\$49.95**

Fits '04-later XL and XR models.
